Our hope is, that he will accept, for we would not care to be deprived of the pleasure of listening to his erformance, whenever the humor is on, and we feel like yielding to its transporting power and undergoing a transformation and adaptation to that sweeter purer and more ravishing music that awaits some of the better types of humanitythe music of the spheres.

The Jefferson post office was entered m Wednesday night of last week, by a couple of Jefferson boys, John Burgess being the elder, and really the only re sponsible one, and about thirty dollars in money, stamps and articles from the stare taken. Burgess having been conreyed by some of his cronies to the A. Y. & P. road, came over to the L. S. station at this place and took lodgings at Booth's, where Marshal Shaw found and took charge of him. He was taken back to Jefferson, and on confessing his guilt. was bound over for trial. The young man was one of the Home childrenbrought from New York a few years ago, and taken and brought up by Mr. Burgess, of Jefferson, and is said to be a rather hard nut.

As the Coroner, Dr. Klugsley, did not choose, after the death of Sheriff Hart, to assume the duties of Sheriff, he on the 29th of July, resigned his office as Coroner, and Edgar J. Dr. Kingsley did not think the change of resdence, and consequent breaking up of his practice, was warranted, for the brief aperient, free from alcohol and capable of space he would hold the office. Ed. Tel.-A meeting was held on last week Wednesday evening for considering the issues growing out of an adoption of the new Constitution and the propositions submitted on the subject of temperance, which are to be voted upon on the 18th inst. M. W. Wright, Esq., was call ed to the chair, and R. L. Grover acted as Secretary. Upon call of the chair, Abel Krum, Esq., of Ashtabula, being present, took the floor and very emphatically and clearly set forth various valid objections o the new document. As far as temperance was concerned, in contrasting the two instruments, he said the old one gave no chance for licensing the liquor traffic. and with a correct public sentiment, the Adair law could be enacted and enforced. and stated his intention of voting against the new Constitution.

Rev. Sam'l Hough took occasion to remark that he could not go so far, and thought care was necessary in voting against the ratification of the new Constitution, to vote for or against all the other points presented. He cited the fact of the wholesale liquor dealers and distillers, presenting an unbroken front, and working with an energy bordering upon desperation to influence the members of the convention to favor a license clause. He showed clearly that the lines between emperance and intemperance were closely drawn. 'He spoke at some length of the practical working of the license system, giving statistics in abundance to prove the great increase in the sale of in- on Friday morning last at about 3 o'clock. toxicating liquor where it had been adopt. Cecelia, bound from Cleveland to Port Stanley with a cargo of block stone. sprung aleak about fifteen miles out from this port, Thursday evening. The Captain made for Fairport, but before he could reach the piers his vessel became waterlogged, and she was beacht the piers. The schooner is Catherines, and is comman

LUMBER CARGO.-The official measure ment of the cargo of the A. B. Moore, reently brought to Chicago, is 1,015,875 ft., and is the largest cargo ever brought to that port by any craft.

GRAIN CARGO,-The mammoth steamhip V. H. Ketchum, is the largest on the lakes on the least draft of water. She is now on her maiden vayage, returning from the delivery of her first cargo of grain at Buffalo. She has performed the round trip between this port and Buffalo side of seventy hours, discharging at that port 65,732 bushels of corn, which time never was beaten. She is capable of carrying 70,000 bushels.

H. H. Hall, and others of our citizen are preparing for a steamboat excursion to the north shore, in a few days.

THE SECRET.-Those who prize a beautiful head of bair, (and we know our lady friends all do), will thank us for a few words on the invaluable qualities of Aver's Hair Vigor as a dressing. our own case it heals a humor, keeps the head free from dandruff and scurf, stops the tendency of our hair to fall, and heightens its beauty. A slight touching with it removes the coarse and dry appearance which neglected hair puts on, mparts a rich gloss, and makes us prestable in the most fashionable company. Such rare qualifications, presented in a single preparation, create for it an enduring value; but add to these the faculty of restoring to gray locks their youthful color, and maintaining our good looks with so small an expenditure of time and attention, and you stamp it a prime favorite to the public, and ensure its permanent and enduring popularity.
